DISASTROUS FRESHETS. It was only a few days ago when we had to chronicle that a cold wave had swept over the country, followed by severe and blocking snowstorms. Now we have to announce that the rain has descended in torrents all over the land, from California to Maine, from the Canadas to the Gulf, doing everywhere great damage. The storm commenced in the west early last week and continued in the east until Monday morning. The dispatches say it is thirty-eight years since that the rain has descended in the case of the Lewiston cotton mills. The overseer went home with her bank a survey of her abode, and came back with two armfuls of reclaimed goods. Saturday night a house owned by John the last six months several thousand head of choice cattle have found their way into the pastures of Cuba. During sust time to escape with what they had on. Loss estimated at \$3000; partially covered by insurance.

Jesse Doyen, formerly of Mexico, died at Oakland, Cal., recently. He was riding our structed the gas pipes. the west early last week and continued in the east until Monday morning. The dispatches say it is thirty-eight years since the Ohio Valley has experienced such general and destructive floods. Nearly every stream and river in Ohio and Indiana were over their banks, and all the principal rivers were spreading destruction along their valleys. Those which did the most damage in Ohio were the Big Miami and Little Miami, Muskingum, Tuscarawas and Sandusky; and in Indiana the Wabash and White. The iron railroad bridge over the Wabash at Delphi, Ind., was carried away. The guard looks of the Wabash and Eric Canal also gave way, and in a short time 200 people were fleeing from their homes. Reports were received, also, of the destruction of the iron railroad bridges at Covington and Carrollton, and several other points in Indiana.

In Ohio fewer important bridges have been lost, but farms and villages were subsection of the firm and indiana were will be the son great among the Ural Khirgiz tribes that they are selling their male children for grain, and leaving the girls to persist the the accident.

Mr. L. S. Weymouth, of Hollis Centre, has put a turbine water wheel into his mill and is making other improvements. He has a Jersey cow which he thinks has a but tup a two story building; the lower floor to be used for a blacksmith's shop, and whise, will be upper floor for a blacksmith's shop, and whise, will be upper floor for a blacksmith's shop, and white. The iron railroad bridge over the Wabash and Eric Canal also gave way, and in a short time 200 people were fleeing from their homes. Reports were received, also, of the destruction of the iron railroad bridges at Covington and the collection of the iron railroad bridges at Covington and the collection of the iron railroad bridges at Covington and the collection of the iron railroad bridges at Covington and the collection of the iron railroad bridges at Covington and the collection of the iron railroad bridges at Covington and the collection of the iron railroad bridges

In Indiana.

In Ohio fewer important bridges have been lost, but farms and villages were submerged, railroad tracks washed out, mills and dams swept away, fences destroyed, and turnpikes overflowed. Railroad traffic was very generally and seriously impeded, and travel in the country was almost impossible on account of the swollen streams and bottomless mud roads. The aggregate of damage to property, not to speak of the obstruction to travel and business, will exceed a million of dollars.

At Troy, Ohio, the hydraulic reservoir burst and the town was inundated, doing much damage. The Tuscaiawas River was considered was recovered as the following appointments of the swollen streams and bottomless mud roads. It is a fight to taken any nourishment since.

Sheriff Alexander of Aroostook county, has made the following appointments of damage to property, not to speak of the obstruction to travel and business, will exceed a million of dollars.

At Troy, Ohio, the hydraulic reservoir burst and the town was inundated, doing much damage. The Tuscaiawas River was a street feet of the swollen streams and the town was inundated, doing much damage. The Tuscaiawas River was a street feet of the swollen streams and the town was inundated, doing much damage. The Tuscaiawas River was a street feet of the swollen streams and the town was inundated, doing much damage. The Tuscaiawas River was a street feet of the swollen streams and the town was inundated, doing much damage. The trade for beef oattle has not improved any over that of one week ago. The markets here will not warrant higher prices to be paid, and in most instances they have not varied much, if any, from those obtained one week ago. Several of the best lots of beeves were sold for the English markets at the highest quotations, but the larger portion of sales to butchers have ranged from 5 to 5% per lb., live weight. The supply from Maine was light, and a large portion of the stock from there were mileh cows and springers, there being but a few beef cattle or working oxen among them.

Swine-Prices of fat hogs have advanced those for this week's market costing the butchers from 61/4 to 63/4c per lb., live

Weekly Market Review.

NEW YORK CITY, Saturday, Feb. .12

Butter—The general market is rather quiet, but prices are steady for all grades. The home trade is fair, and grades that are suited to such wants have a moderate sale. Fancy Eigin creamery has sold in some instances as high as 35c., but 34c., is a full quotation, and it takes fine goods to bring that figure. There is little or no change in State dairy butter. Fine entire dairies sell at 26c., selections of half-firkin tubs at 26c., and fine invoices of firkins at 25c. A few Welsh tubs, dairies entire, are arriving from the northern counties of the State, and are being placed at 21@24c., as to quality. Western imitation creamery sells from 22@28c. Special marks of fresh factory goods bring 24@23c. Strictly fine rolls are not plenty, and are saleable at 20c. Cheese—The unprecedented large re-NEW YORK CITY, Saturday, Feb. .12 rolls are not plenty, and are saleable at 20c. Cheese—The unprecedented large recipts since the first of January has prevented much reduction in the stock of cheese, and all mathematical calculations are somewhat upset. At the moment there is a fair démand for medium grades at the recent decline, while fine cheese are slow and hard to move at the prices quoted. Some receivers ask 14c., for fancy stock, but we can learn of no sales at that figure during the week. Private foreign advices are said to indicate dull markets.

Eggs—A slight increase in the receipts and no better demand makes a weak and unsettled market.

LIVE STOCK.

LIVE STOCK.

Beeves—Total since Friday, 10,866 head, against 11,785 for the corresponding time liast week. The dificulty in getting stock through on time, owing to a scarcity of freight cars at the Western distributing points, resulted in a market every day during the past week. Looking over the offerings, we find 3 car-loads of well-fattened corn-fed Cherokes, which were sold at 9@9½c. and 50c. per head; several loads of Dry cows, rather poor in flesh, mainly from this State, were sold at 3½@3½c., live weight. But the general sales of Native Steers were 8½@9½c. to dress 55@56 lb. for Common to medium; 9½@10½c. to dress 56@57 lb. for Fair to Good; 10½11c. to 57 lb. for prime to choice and a few selections were sold at 7c., live weight. Two car loads of Choice Fat Steers, purchased in Chicago expressly for W. Ottmann & Co. at a cost of 6c. per lb., were in the yards; they averaged 1,489 lbs. and cost delivered here about 12c. to dress 58 lb.

Calves—Receipts, 808 head against 896 LIVE STOCK.
